Letter of Recommendation,

Dear Madam,  
Dear Sir,

UNICEF Belgium hereby confirms to have collaborated with Anthony Asael and Stephanie Rabemiafara - both founder of Art in All of Us - to organize two photo exhibitions in 2006 to raise awareness on the UN Millennium Goals for Development and on Excluded Children.

Art in All of Us ([www.artinallofus.org](http://www.artinallofus.org)) aims at promoting creative multicultural exchanges throughout the 192 UN listed countries, using the universal language of Art. Their mission is to develop the creativity, curiosity and artistic sensitiveness of children all over the world by fostering a world of poetry, drawing and photography.

The UNICEF is supporting this enriching initiative worldwide by providing a promotional and logistic support since it aims to promote cultural diversity, respect, tolerance and non discrimination among children worldwide.

It was a real pleasure to work with M. Asael and Art in All of Us whose magnificent work match perfectly well with the mission and objectives of the UNICEF.

Considering the quality of M. Asael's work, we are planning to work again with its team for our 2007 campaign "A good start in life"

Yours sincerely,

Christian Wiener  
Executive Director  
UNICEF Belgium
