

Art in All of Us is a not-for-profit organization based in Belgium and in the USA dedicated to promote tolerance and to teach children from around the world about other cultures through the universal language of Art.

Our mission is to inspire children across borders to build a tolerant world for tomorrow. We hope to develop creativity, curiosity and the artistic sensitivities of children in the 192 UN-listed countries by providing them the opportunity to discover the world of poetry, drawing and photography. By giving them a voice, children are empowered to express their feelings, build their self-esteem, and create a more positive future.

Our vision is to educate with Art, and promote multicultural understanding across boundaries, through exchanges, and partnerships, while inspiring Global Citizenship. With Art as their tool, children, and in turn, adults will be able to gain knowledge of cultural similarities and differences, and to embrace the "unknown" with tolerance, understanding and curiosity.

Our achievements: Art in All of Us has reached over 11,000 children in 180 countries around the world. More than 260 schools participate in our programs that have inspired the creation of 13,000 pieces of child art. We have recruited 130 volunteers from 31 countries.
